17.00 – 18.00			SCHREIBTYPEN UND SCHREIBSTRATEGIEN (in German) Annette Arend
			Room 1.038, 1st Floor

In the workshops „**Ins Schreiben kommen**“ and „**Generating Text**“ techniques such as freewriting will be presented, which can make it easier to put your writing project into gear!

The workshop „**Fokus und Struktur im Schreiben**“ offers tips and tricks to find and maintain the “common thread” (roten Faden) in your text.

In „**Revising and Editing**“ you will learn how to improve your text on several levels. Elements of storytelling will play a role, as well as questions of structure and making corrections.

In „**Schreibzeitmanagement**“ and „**Productivity Tools**“ we deal with, among other things, using time management tools for your writing projects and finding suitable writing locations.

In the workshop „**Schreibtypen und Schreibstrategien**,“ discover which type of writer you are and learn the most helpful techniques and writing tips for your writing style.
